

THE CISPUS WORKSHOP

For over 40 years the Cispus Workshop has provided an interactive, hands-on learning environment that draws on field-based experience to help participants improve their collaborative efforts.

Whether you are a young professional just getting started or a manager, you will return with relevant and effective tools, enhanced skills, new perspectives and knowledge that you can use right away. You will learn how to do the best job possible;

- within your agency,
- with internal, external and inter-agency work teams,
- with the public.

FROM FACILITATORS EXPERIENCED WITH NATURAL RESOURCE AGENCIES, COOPERATORS, AND STAKEHOLDERS.

Former participants have called
The Cispus Workshop:

"Best government training I've ever attended!"

"I came here a blank slate with little expectations and received a fabulous learning experience."

"Awesome - I learned a lot of directly applicable tips."

"Best and most informative workshop I've been to."

Cispus Learning Center

For questions about the facilities, special diets or accessibility, please call: (541) 523-1453

Cispus Workshop

Collaborative Resource Management

Group effectiveness through
Facilitation, Collaboration, and
Leadership

February 27 – March 3, 2017

A Cispus Institute Training

The Cispus Program

Facilitation

Tired of wasting time in meetings that get nothing done and go nowhere? Learn and practice the essentials for planning, group decision-making and implementing productive meetings.

Collaboration

Learn to connect with stakeholders across a wide spectrum of issues. Discover opportunities and challenges inherent in collaboration and partnerships. Expand your skills in framing and analyzing issues to determine goals, key players, and strategies for involvement.

Leadership

Ever wish your work teams were more effective, creative and accomplished more with less effort? Learn the stages of team development and leadership styles that influence team behavior.

Increased Effectiveness

The sessions focus on aspects of communication that can help you be more effective in collaborative efforts.

During the workshop, we will help you:

- Develop briefings to communicate key issues.
- Explore the dynamics and role of conflict in the collaborative process.
- Identify and analyze learning styles so you can assess other people's styles to foster effective communication.
- Learn skills and techniques to effectively facilitate group interactions to manage process, people and information.

Special evening program

Enjoy a fun, thought-provoking and often humorous evening presentation that offers different perspectives on "The Power of Story."
